Native Plant Nursery Internship

Spring 2020

Do you like working outside? Our Native Plant Nursery Intern assists SFEG staff in upkeeping and maintaining our native plant nursery. Our intern will work frequently with SFEG field staff and volunteers to carry out this work and will perform tasks such as weed control, watering, native plant identification, small structural updates, and much more. The plants that come from our nursery go to our riparian restoration projects led by staff, volunteers, and school groups. These plants end up in sites all over the Skagit and Samish Watersheds!

Qualifications
Applicants should have a background and interest in environmental science/studies, biology, native plant/horticulture, gardening, and/or outdoor recreation. Applicant must be able to identify or must be willing to learn to identify native Pacific Northwest plants. Must have the ability to work with volunteers and provide own vehicle for transportation (mileage to and from Mount Vernon office reimbursed at State rate). This position requires work outside in all types of weather, be capable of walking on uneven ground, and able to lift 50 lbs.

Time Commitment
This is a volunteer internship that requires a time commitment of at least 1 day a week from 7:00 AM to 3:30 PM Monday-Friday. Quarterly commitments from March-June will be considered. Internship is 150-300 hours total with flexible schedule (M-F) but may require some weekends to work with volunteers.
